EDUCATION

University of Nebraska-Lincoln	Lincoln, NE
<i>B.S. in Data Science and Mathematics</i>	Expected May 2026
Cumulative GPA: 3.677	
• Minor: Japanese Studies • Study Abroad: USAC Nishinomiya - Kwansei Gakuin University (Fall 2025) • Coursework: Machine/Deep Learning, Data Structures, Statistical Inference, Operations Research	

TECHNICAL SKILLS

- **Programming:** Python (pandas, NumPy, matplotlib, scikit-learn), R, SQL
- **Tools & Platforms:** Git, Tableau, RStudio, Jupyter, LaTeX, Excel (XLOOKUP, INDEX-MATCH)
- **Concepts:** Regression, Classification, ANOVA, Optimization, Outlier Detection, Statistical Inference, Data Validation

PROJECTS

Health Risk Modeling Analysis	Preliminary Analysis (PDF) (<i>In Progress</i>)
• Built regression models to quantify relationships between socioeconomic, geographic features, and health outcomes • Performed data cleaning, feature engineering, and model evaluation in Python	
Business Data Analysis Report	Report
• Developed a structured analysis using Quarto, combining data processing, visualization, and written insights • Generated actionable recommendations based on real-world datasets	
Machine Learning Projects (Coursework)	Report (PDF)
• Built and evaluated models for sentiment analysis and image classification (SVHN, Fashion MNIST) • Implemented models using TensorFlow and scikit-learn with focus on evaluation and performance tuning	

PROFESSIONAL EXPERIENCE

National Indemnity (A Berkshire Hathaway Company)	Omaha, NE
<i>Pricing Intern</i>	June 2025 – August 2025
• Queried and analyzed premium and policy data using SQL to evaluate discrepancies between legacy rating models and newly deployed pricing systems • Validated premium calculations by joining and filtering multi-table datasets to ensure regulatory alignment and identify irregularities • Automated portions of rate-checking workflows through SQL queries and advanced Excel functions, reducing manual validation time	
UNL Course Evaluation Services	Lincoln, NE
<i>Student Worker</i>	May 2023 – Present
• Manage and validate large structured datasets for over 1,000 courses per semester using Tableau • Develop standardized validation checks and documentation to minimize processing errors across academic units • Collaborate with university administrators to ensure data outputs align with reporting requirements	
UNL Statistics Department	Lincoln, NE
<i>Grader for Statistics and Applications</i>	August 2024 – December 2024
• Evaluated weekly assignments for 30 students, providing detailed feedback on core statistical concepts • Maintained accurate reporting of performance using Canvas software to meet academic deadlines	

HONORS & ACHIEVEMENTS

- **IBM Data Analyst Professional Certificate:** Coursera (Fall 2024)
- **Dean's List:** UNL (Spring 2023, 2025)
- **Eagle Scout:** Boy Scouts of America (2021)
