

Collin Henkel

collinh929@gmail.com | [Portfolio](#) | [LinkedIn](#) | Lincoln, NE

EDUCATION

University of Nebraska-Lincoln	Lincoln, NE
<i>B.S. in Data Science and Mathematics</i>	May 2026
Cumulative GPA: 3.677	
• Minor: Japanese Studies • Study Abroad: USAC Nishinomiya - Kwansei Gakuin University (Fall 2025) • Coursework: Machine/Deep Learning, Data Structures, Statistical Inference, Operations Research	

TECHNICAL SKILLS

- **Programming:** Python (pandas, NumPy, matplotlib, scikit-learn), R, SQL
- **Tools & Platforms:** Git, Tableau, RStudio, Jupyter, LaTeX, Excel (XLOOKUP, INDEX-MATCH)
- **Concepts:** Regression, Classification, ANOVA, Optimization, Outlier Detection, Statistical Inference, Data Validation

PROFESSIONAL EXPERIENCE

National Indemnity (A Berkshire Hathaway Company)	Omaha, NE
<i>Pricing Intern</i>	June 2025 – August 2025
• Identified pricing discrepancies between legacy and newly deployed rating systems by querying and analyzing premium and policy data across multi-table SQL datasets • Validated premium calculations against regulatory requirements, flagging irregularities through systematic joins and filters across production data • Automated rate-checking workflows using SQL and advanced Excel functions	
UNL Course Evaluation Services	Lincoln, NE
<i>Student Worker</i>	May 2023 – Present
• Validate and manage structured datasets for 1,000+ courses per semester, maintaining data integrity across academic units using Tableau • Built standardized validation checks and documentation that reduced processing errors and streamlined reporting workflows	
UNL Statistics Department	Lincoln, NE
<i>Grader for Statistics and Applications</i>	August 2024 – December 2024
• Evaluated weekly assignments for 30 students with detailed feedback on statistical methodology and interpretation	

PROJECTS

Health Risk Modeling Analysis	Report (PDF)
• Found educational attainment to be a stronger predictor of obesity than physical food access across Lancaster County census tracts, using ACS, CDC PLACES, and OpenStreetMap data • Built and compared linear regression and random forest models in Python (scikit-learn, geopandas); engineered distance and density features, achieving R^2 up to 0.59	
Business Data Analysis Report	Report
• Produced a structured analytical report in R and Quarto combining data processing, visualization, and written recommendations from real-world business data	
Machine Learning Projects	Report (PDF)
• Built and tuned models for sentiment analysis (sequential NLP) and image classification (SVHN, Fashion MNIST) using TensorFlow and scikit-learn	

HONORS & ACHIEVEMENTS

- **IBM Data Analyst Professional Certificate:** Coursera (Fall 2024)
- **Dean's List:** UNL (Spring 2023, 2025)
- **Eagle Scout:** Boy Scouts of America (2021)
